GOLD FINDER

METAL DETECTOR

56kHz

PREMIER GOLD DETECTOR!

**GUARANTEED TO FIND
MORE GOLD!**

56 KHz Frequency

56 kHz gives you the ultimate in sensitivity and depth.

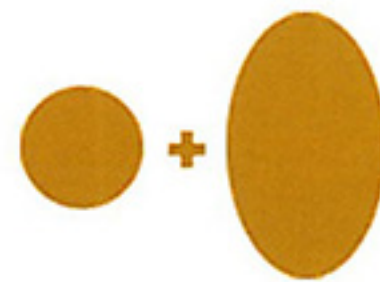

IP54 Rating

IP54 Protects your metal detector from dust & water spray from any direction.

Discrimination

Filter out unwanted items when detecting.

(2) Coil Bundle Pack

Comes with (2) waterproof DD Search Coils (10x5.5" and 5") including coil covers.

Visual LED Discrimination

Know if it's ferrous or gold non-ferrous before you dig.

Boost Switch

Use audio boost to enhance weak signals from small or deep targets.

KEY FEATURES

- 1 Ferrous/Gold Non-Ferrous LED Lights**
Bright color LEDs indicate ferrous (red) or gold non-ferrous (green) targets
- 2 Sensitivity**
Higher level of adjustment allows the AU Gold Finder to sense targets deeper
- 3 Discrimination Filter**
Helps you filter out unwanted targets
- 4 iSAT**
Maintains the steadiness of the Threshold tone in All Metal Mode
- 5 iMASK**
Eliminate false signals caused by ground mineralization or hot rocks
- 6 Ground Balance - Auto/Manual**
Ignore the masking effect that iron ground minerals have over metal targets
- 7 Boost**
Amplify weak detection response for very small/deep targets
- 8 Tracking**
Auto-adjusts ground balance to compensate for ground mineralization changes

Au GOLD FINDER

TECHNICAL SPECS

- 2 Year Warranty
- Frequency: 56 KHz
- Weight: 3.3 lbs (1.5 kgs)
- Search Modes: 3
 - ALL METAL, DISC. 1, DISC. 2
- DISC Filter: 0-40
- Sensitivity Range: 1-10
- Metal Discrimination: By Audio & LED
- Operating Principle: VLF Induction Balance
- Ground Balance: Automatic, Manual, Tracking
- Threshold : Intelligent Self-Adjusting Threshold
- Intelligent Masking (iMASK)

PACKAGE CONTENTS

26 cm x 14 cm (10" x 5.5") DD Search Coil (7' coil)

13 cm (5") DD Search Coil (7' coil)
